of Tax Revenue. This they amply refer to as "broadening the tax base." In other words, they need inflation to broaden the tax base, so they can continue to live in the style to which they are accustomed and improve some, by raising more and more tax dollars, which enable them to continue to throw tax dollars at any problems, real or imaginary, and also increase their salaries and other benefits.

Unless the Cost of Living continues up, up & away, their potential for new or bigger taxes would fade and this would be a disaster no reasonable Politician could stand the sight of. Much less endure. Cost of Living increases are built into every thing from Wages, Social Security, Pensions and as we said before - the Tax Base. Right now there is an organized effort to establish a Federal Sales Tax. While this move might have some merit, it isn't got a chance in the Congress. It's changed things very much, since through Excise Taxes and various other devices we are already in a Federal Sales Tax Situation, already!

Advocates of a Federal Sales Tax say that if it comes, you may not have to make your annual contribution to the IRS. This is about as realistic as the rest of your dreams. The facts of the matter is you would have a hard time putting this sort of stuph in the bench.

If you have been playing on seeing my reduction in inflation, we wish you luck and also want to remind you that you just can't been paying attention. Inflation is the name of the game insofar as your favorite Tax Spenders are concerned, and you'd better believe it.

Ever thine,

The Editor.

P.S. Uncle Duh says one of the things Americans have got to do is to make up their minds. For instance, after many, many years of effort in trying to develop chemicals, etc., that would make grass grow, now the S-M Co. has come out with a chemical to slow down grass growth so you will not have to mow the lawn but about every five or six weeks, instead of weekly. Duh notes where the promoters of Luckenbach, Texas, and Luckenbach Bear, announced last week that since their soap tank had washed out, they figured it was cheaper to annex San Antonio than to dig a trench and tie in on San Antonio's sewer system. Duh figures a new three or four-hole out to handle Luckenbach's sewage. A five-hole at most. Duh says he isn't got any sensible answer yet as to where or when Congress approved that \$30 million and a half campaign HEW's Callahan is likely to start. If Congress or the White House is really interested in saving a little money this Noble Experiment ought to be a good place to start. Theasall, Brother!

PRESIDENT CARTER JOINS THE CLUB...

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

It took a while for President Carter and his Georgia Boys to learn the ropes in Washington, but rest assured from here on in the Political Sell Game will be played by the same old rules and that harmony between Congress and the White House that had been helmed during the Carter administration. During the Carter campaign Carter was blown and gone with the hammer down about how he was going to take the political and log roll out of government and as an outsider he aimed to war with all the dirty line ones and for all, Fergit it.

The recent Panama Canal business with the Senate demonstrates the full turn around and that Carter has learned how to work with Congress by giving in on some of their pet projects. For instance, a number of doubtful Senators decided the Canal Overway was OK after sessions with the President and while we will probably never know all the (CONT. ON PAGE 14)

### 14-State Estimate, Projected Decline In Farrowings Brought Predictions of Sharply Higher Red Meat Prices Coming

The following estimate of the hog inventory in the 14 major swine producing states, which was released last week, was sharply lower than had been expected by the livestock and meat trade. The smaller than expected totals have changed the outlook for red meat supplies and these figures sent what one agricultural economist in USDA termed "shock waves" through the meat industry and changed USDA's estimate of increased red meat prices from a 7.5% advance to one of 11% for this year.

### FDA's Proposals on Antibiotics in Feed Drew Heavy Fire at Hearing At Ames from Feeders, Industry

In the first of three hearings held by the Food & Drug Administration over the proposed severe restriction of the use of penicillin and tetracyclines in animal feeds, which was held at Ames, Iowa, last week industry spokesmen attacked the plan with strong arguments and predicted FDA's notions would be impossible to administer and that they would increase costs of production of meat and poultry and as a result consumers would find prices reaching higher.

### Reduced Supplies at Terminals Hike Fed Cattle, Swine Easier on Monday

The stormy weather which lashed most of the Midwest late last week reduced the available supplies of cattle by about 8,000 and hogs by some 10,000 on Monday and prices were firm to sharply higher on fed cattle at most central markets, with some advances in some late sales. Slaughter cows steady to 1.00 higher. Hog prices ruled weak to lower at most points despite the smaller runs with only a couple of exceptions. Price trends, quotations on choice and prime steers and heifers and the mixed good and choice grades and on U.S. 1-3 hogs weighing generally in the 200 to 270 lb. bracket included:

## CURTIS LAND COMPANY COMPLETE HEREFORD DISPERSION

— 107 LOTS - 200 HEAD —

This is a young herd, 88 of the 107 lots  
were calved after January 1, 1972.

WABASH TAURUS 73D

We purchased this Canadian-bred son of Wabash Taurus 132Y in the C. A. Kinder Dispersal. His calves are great. They are uniform and they are adding "pounds" to our weaning and yearling weights. When C. A. Kinder returned from Canada in 1973, where he attended the production sale of the world famous "Blumes" he told about the purchase of "73D". He showed me a picture of his sire "132Y" and said "This is the Bull." In Blume's 1976 sale catalog they said of 132Y, "132Y was one of the greatest individual bulls we have ever owned. He was the top-selling bull over all breeds at Calgary in 1969. One of the first sons of '132Y' in sell went to England. The second top-selling bull in Blume's 1977 sale was out of a 132Y daughter. Blume Ranches Ltd., Caeter, Alberta, Canada, retained a 1/4 semen interest in '73D'. We will sell 3/4 interest (full possession) including about 250 ampules of semen. There are many herd bull and show heifer prospects in the sale offering by '73D'.

Tillman said there will be no charge for listing the name, address and phone number of members of TSA in the directory. However, additional advertising space will be available to firms wishing to place a larger ad in the directory.

"Anyone who is not a member of Texas Shorthorn Assn., but desires to be listed in the directory, needs to send in their \$15 annual membership dues as soon as possible to ensure listing in the directory."

Dues and listing information should be sent to Dan Tillman, Secretary-Treasurer, Texas Shorthorn Assn., Route 4, Box 8820, Weatherford, Texas 76086, phone 817/694-4290.

## McGuiness Shorthorn Dispersal Set May 20 At Seagoville, Texas

Seagoville, Texas — Leo and Opal McGuiness will disperse their famous Irish Oak Farm's Polled Shorthorn herd in a sale at the farm near here beginning at 1 p.m., Saturday, May 20.

Majority of the cattle to be offered will come from the McGuiness herd, but guest consignors John David Smith, a Polled Shorthorn breeder at Seagoville, will have three females and one bull, and H. S. and Edna Osborne, of Denton, will have some females in the sale.

The Irish Oaks herd consists of about 40 females including 10 open heifers, 10 bred heifers, and 20 cows with calves. All the females will be pregnancy checked, and will have complete health papers for shipment anywhere in the nation.

McGuiness will also sell his three herd bulls and two yearling bulls. One of the older herd bulls is Coronet and Max Leader bloodlines, bred by Thiemann's Polled Shorthorns, Concordia, Mo. Another of the herd bulls is of Ginnell breeding.

McGuiness, who is 92 years old, went into the Shorthorn business 29 years ago at a time when Shorthorns were scarce in this area, especially in the Seagoville area.

For further information on the sale contact Odie A. Lowe, P. O. Box 184, Rockwall, Texas 75087, phone 214/722-9229; or Leo and Opal McGuiness, Irish Oak Farm, Route 2, Box 48, Seagoville, Texas 75159, phone 214/474-3784.

## A LOT OF BULL?

You bet.

Just ask Shorthorn producer Bob Rutter of Seagoville, Okla., Rock, Iowa. He reports bulls that are born unassisted, that weigh at 516 pounds, and that gain 4.20 pounds per day on a 140-day test, and that weigh 1,169 pounds at one year.

Shorthorns have always had the ability to grade choice, so when you put it together here is a breed that does it all.

Through the efforts of ASA's advancement programs and study and research by individual breeders Shorthorns' improvement is increasing all the time.

No fillies, no females. Just a breed that means higher profits for you.

And that's no bull!

Houston — Danny Huddleston, 16, of Alvin, Texas, a veteran of eight Houston Livestock Show competitions, capped his 1977-78 show season by taking both grand champion bull and female titles in the milking Shorthorn open show Feb. 25.

His four-year-old champion bull, "Oak Grove Golden Bo Lean 2d," had also been the grand champion at last year's Houston show, and champion at the one of the leading herds of the breed. Featured in the sale will be members of the show string that has been shown throughout the fall and winter show circuit.

For information and catalogs contact the sale management, Cagwin Cattle Services, Inc., P. O. Box 158, Virginia, Illinois 62691, 217/452-5282, Don Cagwin, 217/452-7520, or Darryl Rahn 217/452-3937.

Texas and New Mexico state fairs. "Cherry," his four-year-old champion cow, lists among her winnings a second place at the National Milking Shorthorn Show in Tulsa, grand champion at Dallas, and reserve champion at Lubbock.

The show was judged by Ray Spann of Tennessee.

The Huddlestons of Alvin, including Danny, C. L. Huddleston & Son, Jackie Huddleston Jr., and Joyce Huddleston, shared the show's spotlight with Lewis Arthur, Paula Valley, Okla., who had several class winners and was named both premier exhibitor and premier breeder.
